Dear Mr. Weisberg,

During the past few months an intense interest in the J.F.K. assassination has grown in me and three of my friends. We have recently begun collecting evidence ourselves, on the assassination, primarily in the form of printed materials but we are very anxious to extend our collection to those materials not available by mass reproduction. We have seen and read parts of your three volumes of "Whitewash" and are hoping that you perhaps could help us in our search for unprinted evidence.

We are firm believers that the findings of the Warren Commission, particularly their lone assassination theory, are incorrect. As a fellow critic we are hoping that you can give us some advice and help in our research.

I hope that in the near future it will be possible for you and the four of us to get together and discuss our common interests and goals.

Sincerely yours,

Joe E. Tritchler
